

## **Launch of “GC-Extreme” – Thermal Compound**

The Cutting-Edge Thermal Compound for Extreme Users

### **HONG KONG, 12 June, 2009**

Thermal Solutions specialist GELID Solutions launches the cutting-edge “GC-Extreme” thermal compound. In comparison to the previous multi awards winner compounds of GELID Solutions the

“GC-Extreme” breaks all record.

You can see the review [here](#) .

Ultimate heat conductivity makes the “GC-Extreme” the leader of all thermal compounds. As with the other compounds of GELID Solutions the “GC-Extreme” is non-electrical conductive, non-corrosive, no bleeding and non-curing. Created for Extreme Users the “GC-Extreme” thermal compound ensures the best heat transfer from your CPU, VGA or even Chipset. Like the other compounds of GELID Solutions the “GC-Extreme” offers a GELID applicator which enables an easier application. As a product of the GAMER product line the “GC-Extreme” contains 3.5 g.
